

## **PRC Composites Completes Transition to AS9100 Rev D**

PRC Composites, LLC, based in Ontario, California, has completed a successful certification transition from AS 9100 Rev C / ISO 9001:2008 to **AS9100 Rev D / ISO 9001:2015**. AS9100 Revision D is the most recent Quality Management System (QMS) standard for the aviation, space, and defense industry, and is based on the ISO 9001 Quality Management System and supported by the International Aerospace Quality Group. PRC is proud to be the first in its industry to be certified to AS9100 Rev D / ISO 9001:2015.

PRC Composites, LLC President, Gene Gregory, said in an April 26, 2018 press release that we are strongly committed to delivering the highest quality products and meeting on time delivery schedules for our customers. The Corporate Goal and Commitment is to meet or exceed internal, customer and regulatory requirements.

PRC Composites, LLC is a tribally-controlled, privately held, minority business enterprise which employs more than 100 at a 100,000 square foot facility in Ontario, CA and 10,000 square foot facility in Chino, CA.

PRC Composites, LLC designs and manufactures large-sized, specialized Shipping and Storage Containers. These containers are of the long-life variety and are uniquely configured to support and protect a specific item during handling, storage, and shipment. Containers of this type incorporate energy absorbing systems, pressure and humidity control systems, and special features to make handling and shipping easier and safer. The Containers are designed to meet Government Specifications, Standards and Handbooks.
